SCHOOL OF POSTGRADUATE STUDIES

— Inspiring minds & shaping the future —

NOTE

Regulations and curricula for 2013 may be amended. General regulations and information appear in the **General Information and Regulations Prospectus**.

Although the information contained in this Prospectus has been compiled as accurately as possible, Council and Senate accept no responsibility for any errors and omissions which may occur. The University retains the right to amend any regulation or condition without prior notice.

The information is correct up to 31 October 2012.

The fact that particulars of a specific programme or field of study have been included in this Prospectus does not necessarily mean that such programme or field of study will be offered in 2013 or any consecutive year.

This Prospectus must be read in conjunction with the **General Information and Regulations Prospectus**.

IMPORTANT NOTE

Please consult the relevant Faculty Prospectus for detailed information regarding the course descriptors of all qualifications offered in the specific Faculty

PREAMBLE – SCHOOL OF POSTGRADUATE STUDIES

The mission of the School of Postgraduate Studies is to promote excellence amongst postgraduate staff and students through responsive teaching, Postgraduate Studies research and supervision, scholarship and instructional pastoral support.

The main objective of the School of Postgraduate Studies is to become a PGS School of repute that effectively enables UNAM to fulfil its national Postgraduate education and training mandate.

The School of Postgraduate Studies has the mandate to coordinate the University of Namibia's Postgraduate Programmes in a manner that uniform quality control regulations and procedures are strictly adhered to and high academic standards are maintained. In addition to providing postgraduate students with high quality academic, ICT, psychosocial and social-emotional support services. The School is mandated to build capacity for the expression of excellence in teaching, student research supervision and innovation amongst postgraduate staff.

The roles and responsibilities of the School of Postgraduate Studies are to:

- Coordinate and monitor the running of University of Namibia postgraduate programmes; including externally supported postgraduate training programmes to ensure quality control and the maintenance of high academic standards;
- Coordinate the consideration and processing of postgraduate student research proposals, theses and dissertations;
- Coordinate and administer viva voce examinations;
- Review all postgraduate programmes offered either by the University of Namibia or through the University of Namibia;
- Provide academic support services to postgraduate students such as those of study programme information dissemination, supervision, academic Counselling and pastoral care, enrolment, registration, examination, compensatory capacity enhancement, postgraduate level ICT empowerment and access to electronic resources for study purposes, postgraduate study resource mobilization and any other services germane to the optimal provision of postgraduate studies;
- Provide postgraduate students with opportunities to interact and determine their own welfare through the envisaged postgraduate students association and the postgraduate students newsletter;
- Enforce common regulations on PGS programme structures, admissions, enrolment, registration, assessment, PGS progression rules and termination of registration rules;
- Operate administrative and academic structures for applying research ethics in postgraduate training and in the use of human and animal subjects in research conducted by postgraduate students;
- Empower academic staff, through short courses, workshops and seminars, to teach at the postgraduate level, conduct effective student supervision and lead viable collaborative staff/student research teams;
- Consider and assess the viability, quality and accreditation issues of new postgraduate programmes;
- Initiate, formulate, interpret, and review postgraduate studies regulations.

The Faculty of Agriculture and Natural Resources may award the following postgraduate qualifications:

Qualification Code	Qualification Name	Study Period
17MSRR	Master of Science (Rangeland and Resources Management)	2
17MSAG	Master of Science (Agriculture – by Thesis)	2
17MSFA	Master of Science (Fisheries and Aquatic Sciences)	2
17DPAG	Doctor of Philosophy (Agriculture – by Dissertation)	3
17DPFA	Doctor of Philosophy (Fisheries and Aquatic Sciences)	3

B.2 M. SC. RANGELAND AND RESOURCES MANAGEMENT [17MSRR]

B.2.1 ADMISSION

- B.2.1.1 The University of Namibia general regulations regarding admission of students to Master's Degree programmes shall apply.
- B.2.1.2 Notwithstanding the above, students wishing to enrol for this programme must be in possession of a good undergraduate Bachelor of Science degree in Agriculture, Biology, Life Sciences, or related field from a recognized and accredited institution of higher learning.

B.2.2 ASSESSMENT

The following were adopted to ensure high standards and competitive degree quality:

- B.2.2.1 A 3-hour theory examination at the end of each course;
- B.2.2.2 A pass mark of 60% for all courses, including the thesis;
- B.2.2.3 A weighting of 50:50 for continuous assessment (CA) and the final examination;
- B.2.2.4 At least 3 different continuous assessments for each course for core courses and 5 for generic courses;
- B.2.2.5 Only students with an attendance record of 80% of all course activities (excluding continuous assessment activities) and a minimum continuous assessment grade of 40% can write the final examination;
- B.2.2.6 A supplementary examination may be conducted in cases where a student has obtained a fail mark of 45 – 49% (hereinafter referred to as marginal fail) in the Regular Examinations. A student who fails to get the required passing marks after the supplementary examination will have to repeat the failed course in the subsequent year.
- B.2.2.7 A student can remain registered for a maximum of 4 years.
- B.2.2.8 Student will only be awarded M.Sc. degree in Rangeland Resources Management upon completion of all required courses with a pass mark of 60% or higher, including the thesis component.

B.2.3 DEGREE STRUCTURE

The following will be the structure of the degree.

- B.2.3.1 The degree name will be MSc. Rangeland Resources Management and will be housed and taught in the Department of Animal Science at the University of Namibia.
- B.2.3.2 It will be a two-year fulltime program with a 50:50 weighting of course work to research. The program is based at Neudamm Campus. Classes/Lecturing will take place during daytime.
- B.2.3.3 Coursework will be covered over two semesters in the first year while research and thesis work will be done in the second year.
- B.2.3.4 There will be a maximum of 15 students per intake (minimum 5 students) and new intakes will be done once in two years.
- B.2.3.5 The degree course work will comprise of: 8 compulsory core courses, 2 (out of 7) elective core courses and 2 compulsory generic courses. Graduation requires the completion of minimum 240 credits in line with NQA guidelines.
- B.2.3.6 Core courses, both compulsory and elective will be equally weighted at 12 credits each, equivalent to 40 hours, while generic courses will each be weighted at 16 credits, equivalent to 64 hours.
- B.2.3.7 Each core course will run over a 4-week block, while the generic courses will run over 28 weeks, across the two semesters.
- B.2.3.8 Six core courses will be taught each semester with a week's break between the core teaching blocks.
- B.2.3.9 Core course examinations will be written immediately after the course, during the inter-block break.

B.2.3.10 To counter the anticipated time-tabling problem regarding the 7 elective courses, there will be restricted possible course combinations and sequencing in the student's degree plan.

B.2.4 TEACHING MODE

This will include; lectures, field work, discussion seminars, case studies, group projects etc.

B.2.5 THESIS COMPONENT

Only students who have successfully passed all coursework shall be allowed to undertake research in Range Resource Management. Each student is required to propose a topic and write a proposal for research before the end of the first year. The official registration for the thesis will depend upon acceptance of her/ his proposal by Postgraduate Students Committee.

Two (2) supervisors are recommended per student and the main supervisor must be from UNAM and must be a PhD holder. All theses must be externally examined.

C.3 MASTER OF SCIENCE IN ACCOUNTING AND FINANCE [12MSAF]

This program consists of two major parts i.e: core courses and a thesis. The program runs for two full academic years of evening study.

C.3.1 OBJECTIVE OF THE PROGRAM

This programme is designed for graduates with a strong interest in accounting, finance and financial control. It offers participants advanced preparation for career development in accounting and finance and it also provides an excellent foundation from which to pursue research at Doctoral level. The target group includes finance managers and accountants who are responsible for the accounting and financial management of organizational resources. It is thus, appropriate for those aspiring to work as chief financial officers, management accountants, finance managers, financial analysts, fund managers, risk managers, controllers, internal auditors, regulators, market intermediaries and their assistants in the private and public sector or already in employment.

C.3.2 ADMISSION REQUIREMENTS

1. A candidate must have
 - i. a Bachelor of Accounting or an equivalent degree from the University of Namibia or any other recognized institution of higher learning with at least a C grade average OR
 - ii. a good postgraduate diploma in business related fields from the University of Namibia or its equivalent.
2. A prospective student may be interviewed and assessed by the Department of Accounting before recommendation to the Postgraduate Studies Committee.

C.3.3 DURATION OF STUDY

The Master of Science in Accounting and Finance cannot be obtained in less than two years of full-time study and must be completed in three academic years.

C.3.4 ASSESSMENT AND EVALUATION OF STUDENTS

1. For each taught semester course, there will be at least two pieces of work towards continuous assessment, involving tests, assignments, term papers or other forms of evaluation, and a three-hour final examination at the end of the semester.
2. A candidate must obtain a continuous assessment mark of 40% for admittance to the examination. The University of Namibia's regulations for postgraduate studies are applicable in respect of class attendance, examination, academic integrity, and the ranking achieved.
3. The examinations on each course will be moderated externally. The final mark will consist of the Continuous Assessment Marks (50%) and the Examination (50%).
4. A student must pass all semester courses (including the thesis) to qualify for the M. Sc in Accounting and Finance. A student that fails a course must re-register in the next cycle. A student may only re-register for three courses. A student who failed more than two semester courses in a year will be discontinued from the programme.
5. A student must pass all coursework examinations before proceeding to the thesis.
6. A student must submit a research proposal at the beginning of the first semester in which he/she is required to write the thesis. The student should present the proposal to a Departmental Seminar consisting of other class members and departmental staff. The Department will assign a supervisor to each student. The supervisor (internal examiner) and one external examiner will evaluate the thesis.
7. The degree of Master of Science in Accounting and Finance will be conferred upon a student on successful completion of all the requirements outlined above.
8. The University of Namibia's Postgraduate Studies rules and regulations shall apply in all cases where they are not stipulated in this programme (see Section I of this Prospectus).

C.3.5 MODE OF DELIVERY

The Master of Science in Accounting and Finance is a face-to-face evening programme. Teaching includes lectures, discussions, case analyses, student presentations, group projects, computer simulations and guest speakers from industry and government.

C.4 MASTER OF SCIENCE IN ECONOMICS [12MSEC]

C.4.1 INTRODUCTION

The Master of Science (M.Sc) in Economics programme offered by the Economics Department at UNAM is to be upgraded to a collaborative Masters programme in Economics, under the coordination of the African Economic Research Consortium (AERC), based in Nairobi, Kenya. The programme consists of three phases: the first phase is coursework, which covers the core courses and selected electives offered at UNAM; the second phase is the set of electives offered through a Joint Facility for Electives (JFE) in a country chosen by the AERC's Academic Board; and the final phase involves theses to be conducted after completion of coursework, including the electives offered at the JFE.

The first intake of the collaborative Masters programme in Economics at UNAM will commence in July/August 2009 and continue on a full-time basis until May/June 2011. The programme for the subsequent years will follow the same cycle.

During the end-of-academic year break (May/June to August/September), the students will be required to attend the Joint Facility for Electives in the country chosen by the AERC's Academic Board.

C.4.2 OBJECTIVES

The collaborative Masters programme aims to assist participating universities in training economists in advanced theory and methods, mainly for policy analysis and economic management within government, but also for employment in the private sector. It aims also to provide the foundation for students to pursue more advanced studies at the doctoral level, mainly for employment in universities and research institutions. To these ends, the collaborative programme aims to help develop Masters programmes in Economics in African universities that meet international standards, which are relevant to the unique circumstances of African economies, and which can eventually be sustained with local resources.

The programme is designed for graduates with a strong interest in economics, with the aim of strengthening skills in quantitative methods and econometric techniques needed for advanced studies in economics, research and the academic profession. The programme is also suited for professionals in the private and public sectors since these sectors need economic tools to analyse risks from different perspectives. The main objective of the program is to build capacity, particularly for the Economics Department at UNAM, as well as for the Namibian economy, since there are limited qualified professionals in the field of economics in the country.

C.4.3 ADMISSION REQUIREMENTS

1. A candidate must have a Bachelor of Economics or an equivalent degree from UNAM or any other recognized institution of higher learning.
2. A candidate must have a minimum of a C grade average (Lower Second Class degree).
3. All applications will be reviewed and shortlisted by a committee of the Department of Economics at UNAM.
4. Prospective students may be interviewed by the Departmental Committee if deemed necessary.
5. Applicants should note that submission of application does not necessarily ensure admission.

C.4.4 DURATION OF STUDY

The Master of Science in Economics degree cannot be obtained in less than two years of study, and must be completed within a period of three academic years. There will be no possibility of re-admission after a student has been discontinued from the programme.

C.4.5 ASSESSMENT AND EVALUATION

1. For each taught course, there will be at least two pieces of work to account for the continuous assessment (CA) mark, and these will involve tests, assignments, projects and term papers, as deemed necessary by the Lecturer.
2. There will be a three-hour examination in each taught course at the end of the semester in which it is offered.
3. A student must obtain a continuous assessment mark of at least 40% for admission to examination. The final mark will consist of 50% of the CA mark and 50% of the end-of-semester examination mark.

4. The end-of-semester examination papers will be moderated internally and externally.
5. The University of Namibia's regulations for postgraduate studies, class attendance, examinations, academic integrity and other rules will apply to the M.Sc programme in Economics (see Section I of this Prospectus).
6. A student must pass all taught courses before being allowed to work on the thesis. A student who fails a course but meets the minimum requirement for a supplementary examination must take the supplementary examination and pass it, to avoid being discontinued from the programme.
7. A student must pass all courses (including the thesis) to qualify for the award of the M.Sc in Economics degree.
8. The assessment and evaluation of students in the electives offered at the JFE will be determined by the AERC's Academic Board. The marks obtained in courses offered at the JFE will form part of the student's academic record at UNAM.
9. A student must submit a research proposal by the beginning of the first semester in the second year of study. The proposal must be presented to a Departmental Seminar consisting of his/her colleagues and staff members, including the thesis supervisor. The proposal must be approved by the Department of Economics and the Postgraduate Studies Committee before the research study can be conducted.
10. Each thesis will be examined and graded by an Internal Examiner and an External Moderator.
11. Successful candidates will be conferred the Degree of Master of Science in Economics upon completion of their studies.
12. Rules and regulations of the Postgraduate Studies Committee of UNAM will apply.

C.4.6 TEACHING METHODS

Teaching of courses will include lectures, group discussions, seminar presentations, public lectures, and guest speakers.

C.4.7 MODE OF DELIVERY

The programme will be offered face-to-face during the day on a full-time basis.

C.4.8 EXEMPTIONS

A student who has completed and passed any or some of the courses and electives included in this curriculum at the masters' level may qualify for exemption up to a maximum of two courses, subject to recommendation of the Head of Department and approval by the Registrar's Office.

**C.6 MASTER OF ARTS (M.A. POLITICAL STUDIES) [12MPST]
MASTER OF PUBLIC ADMINISTRATION (M.ADMIN) [12MPAN]
MASTER OF ARTS IN SAFETY AND SECURITY STUDIES [12MASS]**

Master of Arts (M.A. Political Studies) [12MPST]; Master of Public Administration (MPA) [12MPAN]; Master of Arts in Security and Strategic Studies (MA – SSS); and Master in Public Policy and Administration (MPPA)

C.6.1 INTRODUCTION

The Political and Administrative Studies' (DPAS) postgraduate curricula reflect the contributions of a wide-range of stakeholders. If properly articulated and with robust quality control, these academic programmes will not only enhance the knowledge of those enrolled in them, but the curricula will help individuals to acquire such knowledge and research skills useful in a range of applications in both the public and the private sector. A surge in the delivery of academically robust postgraduate offerings in both Politics and Public Administration, coupled with increased calls for capacity-building to be at the heart of the global security agenda have led to the requirement for and/or new knowledge and skill-sets.

The Department offers four different types of degrees, namely, Master of Arts in Political Studies (M.A. Political Studies), Master of Public Administration (MPA), Master of Public Policy and Administration (MPPA) which is not covered in this document and Master in Security and Strategic Studies (MA SSS). M. A. Political Studies and MPA are offered in two modes.

The first is by research which entails writing a comprehensive thesis on an approved topic. The candidate will be required to register and pass two courses: Research Methodology (PAR 5972), and a second course related to the candidate's research topic which the department should have approved before the students registered. Additionally, commencement of the programme starts at the beginning of the Second Semester in order to allow the student to register for the Research Methodology course. The course is offered in the Second Semester of the first academic year of the programme.

The second is by course work which requires the candidate to register for a minimum of eight (8) courses of which five are core. For M.A. Political Science: Politics of Southern Africa [PPA 5971], The Study of Comparative Politics [PCP 5971], State and Civil Society [PSC 5972], Research Methodology [PAR 5972], and Research Paper [PRP 5981]. The first three (3) are full courses, and the last two (2) are half courses.

For MPA: Public Management and Administration [PAM 5971], Public Policy Process and Analysis [PPA 5972], and Human Resources Management [PRM 5971], Research Methodology [PAR 5972], and Research Paper [PAP 5981] are core. The first three (3) are full courses, and the last two are half courses. For MA – SSS: The student must register for all of the courses offered.

The student will also write a thesis comprising an abstract of between 300 and 400 words, and a thesis of between 12000 and 15000 words.

C.6.2 ADMISSION REQUIREMENTS

Admission to these programmes is determined by the Rules and Regulations of the University. In addition, candidates in possession of professional qualifications accredited by the National Qualifications Framework (NQF), deemed to be equivalent to a Bachelor's degree from UNAM, and with relevant work experience in specified fields such as the security sector and foreign affairs, may also be considered for admission, in particular to the Master of Arts in Security and Strategic Studies (MA.SSS).

Students applying from other institutions of higher learning may be required, over and above the official academic transcript, to submit some examples of their written work to the Department.

Prospective candidates could be interviewed and assessed by the Department to determine their eligibility for admission.

C.6.3 DURATION OF STUDY

The Master's degree by research is done on a part time basis, and should be completed within three (3) years. An extension of the registration period of up to one academic year beyond the specified three years may be granted by the Faculty acting on the recommendation of the Department. Consent of the supervisor/s is a precondition for such an extension of registration.

The Master's degree by coursework can be done either on a full time or on a part time basis. When done on a full time basis the programme should be completed within two (2) years, and within three (3) if it is done on a part time basis. Both modes allow for one (1) year extension of the registration period beyond the specified two and three years respectively if granted by the Faculty on the recommendation of the Department and with the consent of the supervisor/s involved.

C.6.4 ASSESSMENT

A candidate registered for a course work programme shall write an examination at the end of each course. To qualify for admission to the examination a candidate must obtain a minimum Continuous Assessment (CA) mark of 40 %. Each course is worth twenty four (24) **Credits**, and eighty (80) for a thesis.

A candidate registered for a Master's degree by research only will be supervised by a duly appointed and qualified supervisor(s) subject to the Postgraduate Regulations of the University and to the Departmental guidelines. His/her thesis will be examined by two or more qualified examiners duly appointed and approved by Examinations Office – acting on behalf of the Senate.

The Department has the right to deregister a student if he/she does not progress satisfactorily in either the course work or in writing the thesis. A student is expected to successfully complete two-thirds of the required number of courses per academic year if he/she wishes to continue to the following academic year. All courses need to be passed before a student proceeds to the thesis component.

C.6.5 EVALUATION OF THESIS/DISSERTATION

Evaluation of theses and dissertations will be done under the Postgraduate Rules and Regulations of the university (see Section I of this Prospectus).

C.6.6 EXEMPTIONS

Exemptions for postgraduate work done at another recognized university will be determined by the Department in due consideration of the following:

A maximum of four (4) courses will be exempted.

Applications for exemptions must be directed to the Department and must be accompanied by a valid course framework and academic transcript.

The decision of the Department shall be final.

Registration of candidates who did not complete Master's degree programmes by research at other Universities will be considered on individual merit – case by case.

The Department retains the right not to grant exemption for work completed at another university.

C.6.7 DEPARTMENTAL POLICY

Following are departmental policy provisions:

Study at Master's level is based on tutorials and seminars, rather than traditional lectures. That means the students have to participate actively in such tutorials/seminars, and that they have to do the necessary reading before each lecture or tutorial session.

When students are unavoidably prevented from attending a tutorial/seminar or completing a written assignment as scheduled, they have an obligation to inform the concerned lecturer as soon as possible.

Supervisor(s) will be assigned only after their approval by the Examinations Office. Each supervisor will enter into a written contract with the student concerned specifying the rights and obligations of both parties.

The Department will appoint a suitably-qualified Course Convener for each of its academic programmes.

Additionally, the Department considers academic integrity as fundamental to every facet of the scholarly process and, it is expected of every student and lecturer. It entails firm adherence to academic honesty and to ethical conduct consistent with values based on standards that respect the intellectual property and efforts of both oneself and others.

D.2 MASTER OF EDUCATION PROGRAMMES

D.2.1 RATIONALE AND PROGRAMME DESCRIPTION

Education is faced with complex challenges for which undergraduate education may not provide adequate solutions. The M. Ed aims at bridging that gap. This programme is designed to cater for postgraduate students intending to pursue a level 9 degree in education and thereby more and in-depth knowledge and skills in their respective areas of educational specialisations.

The programme can be done either by **coursework and thesis** or by **thesis only**. It is expected of students who opt for the coursework and thesis option to the required courses whose breakdown is as follows:

- Advanced Educational Research EAR 5910 (**compulsory**); and
- **One** 36 credit course or equivalent courses offered by departments according to areas specialization (see list below),
- **Two** 24 credit courses or equivalent courses offered by departments according to areas specialization (see list below),
- **One** compulsory seminar course ESS 5928, and
- **One** thesis ETM5980.

In addition, students will be required to complete an advanced course in Academic Writing for Postgraduate Students.

Specialisation per Department

- **Department of Curriculum, Instruction and Assessment Studies**
Master of Education (Curriculum and Assessment Studies)
Master of Education (Educational Technology)
- **Department of Educational Foundations and Management**
Master of Education (Leadership, Management and Policy Studies)
- **Department of Lifelong Learning and Community Development**
Master of Education (Adult Education)
- **Department of Mathematics, Science and Sport Education**
Master of Education (Sport Education)
Master of Education (Mathematics Education)
Master of Education (Science Education)

Note: UNAM calculate Masters' credits at a ratio of 1.5 to the undergraduate programmes. Therefore a full course is equal to 24 credits per semester and a double course 48 credits per year.

D.10 MASTER OF EDUCATION IN LITERACY AND LEARNING [10 MEDL]

This programme will be housed in the Faculty of Education but will be offered jointly by the Faculty of Education, the Faculty of Humanities and Social Science and the Language Centre.

D.10.1 INTRODUCTION

Studies have shown that several Namibian and Zambian primary school learners display very low reading and writing abilities.

One of the main reasons for this is inadequate teacher capacity to provide optimal reading and writing instruction to the learners.

In an effort to mitigate this, the Masters' degree in Literacy and learning has been designed.

D.10.2 ADMISSION REQUIREMENTS

To be admitted to the programme, a candidate shall be required to have:

- (i) a bachelors' degree with a major in any language and with at least a C-grade average (i.e., 60% average);
- (ii) a teaching qualification; and
- (iii) at least three years of teaching experience in any language.

In addition, other University of Namibia admission requirements for Masters' degree programmes will apply.

D.10.3 DURATION OF STUDY

The duration of the programme shall be two years on full time basis and three years part time.

D.10.4 DELIVERY MODE

The programme shall be delivered through full time or part time face to face mode in co-operation with sister faculties.

For NOMA sponsored candidates the programme shall be offered on fulltime face to face basis only.

The programme will be offered by coursework and thesis. Distance mode may be considered for the future.

D.10.5 ASSESSMENT

Assessment of both the coursework and the thesis shall be in accordance with the general regulations of the University of Namibia

Coursework

- a) Continuous assessment (e.g. tests, assignments, projects) 50 %
- b) Final examination 50 %

The student must pass all coursework courses before he or she may proceed with the thesis.

D.10.6 REQUIREMENTS FOR QUALIFICATION AWARD

A candidate must meet all the programme requirements to be awarded the Master's Degree in Literacy and Learning.

D.10.7 COURSEWORK

If suitable lecturers cannot be identified for the two electives *Language Education Policy* and *Pragmatics and Discourse Analysis*, these two electives will not be offered. Students will then take the remaining elective, *Teaching and Literacy Skills*, during the second semester.

Thesis

All staff involved in coursework will also be responsible for theses supervision. The main supervisor for each student enrolled at UNAM, will be from UNAM and the co-supervisor/s may be from the co-operating institutions.

E.2 POSTGRADUATE DIPLOMA IN TRANSLATION [13PDST]

E.2.1 AIMS AND OBJECTIVES

The aim of this programme is to train professional translators for Namibia. Because of its multilingual society, Namibia is in need of qualified translators. These needs are particularly acute in the field of science and technology, in the field of law, in the tourism industry as well as in the media (print as well as radio and television). Thus the University will be instrumental in filling an existing void.

Programme Co-ordinator: Prof. M Zappen-Thomson (tel. 206 3857; E-mail: mzappen@unam.na)

E.2.2 ADMISSION REQUIREMENTS

- To be admitted to the PGDT programme, a student must be in possession of a recognised Bachelor's degree and/or proven relevant practical experience.
- Subject to the general regulations of the University, applicants will be admitted to the programme only after successful completion of an aptitude test.

E.2.3 DURATION OF STUDY

The minimum period of registration for the Postgraduate Diploma in Translation is one (1) year of full-time study or two (2) years of part-time study, including the equivalent of 360 hours internship. The internship can either be done during the academic year, or after completion of all the other components of the programme. A student will be awarded the Diploma only after successful completion of the academic components plus the internship.

E.2.4 EXAMINATIONS

Examinations will be conducted in the following year-Courses:

- TMF 4110 Translation Mother Tongue – First Foreign Language
- TFM 4110 Translation First Foreign Language – Mother Tongue

Refer to Continuous Assessment and Examinations in the Faculty of Humanities and Social Sciences Prospectus and the General Regulations and Information Prospectus of UNAM.

Assessment in the other Courses consists of continuous assessment only. No examinations will be conducted in those Courses. Students will be advised on the compilation of continuous assessment marks.

G.1 POSTGRADUATE QUALIFICATIONS OFFERED BY THE FACULTY OF LAW

The Faculty of Law may award the following postgraduate qualifications:

Qualification Code	Qualification Name	Study Period
16MLAW	Master of Laws (by Thesis)	2 FT& 3 PT
16DPLA	Doctor of Philosophy (Law)	3

G.2 MASTER OF LAWS (BY THESIS) [16MLAW]

NO INTAKE FOR 2013

The Faculty of Law offers a Master of Laws degree which shall be examined by research only in any field of law approved by the Faculty.

The LL M (by Thesis) will be offered in compliance with the general regulations and guidelines for postgraduate studies at the University. Refer to the Regulations for Postgraduate Courses of Study in this Prospectus and the General Regulations and Information Prospectus.

G.2.1 ADMISSION REQUIREMENTS

A person may be considered for admission as a candidate for the degree of Master of Laws if

- s/he has a good law degree with at least a C-grade average (i.e. 60-69%) of the University of Namibia or an equivalent degree of another University/institution recognized by the Senate, on the recommendation of the Faculty of Law, for the purpose; or
- s/he has in any other manner attained a level of competence, which in the opinion of senate, on the recommendation of the faculty of law, is adequate for the purpose of admission as a candidate for the degree.

G.2.2 DURATION OF STUDY

- A full-time candidate shall complete the approved thesis for the degree within one (1) academic year; a part time candidate within two (2) academic years.
- The faculty board may, in justified cases, extend the duration of studies of a full-time candidate up to two (2) academic years and a part-time candidate up to three (3) academic years.

G.2.3 CURRICULUM COMPILATION

The curriculum for the Master of Laws (by research) is as follows:

Year	Course Title	Code	NQF Level	Contact Hours	Credits
1	Academic Writing for Postgraduate Students	UAE 5819	8		
1	Masters Research Proposal (Law)	LMP 5100	9		
1	LL M Thesis	LTH 5900	9		

G.3 DOCTOR OF PHILOSOPHY IN LAW [16DPLA]

NO INTAKE FOR 2013

The Doctor of Philosophy in Law (PhD) will be offered in compliance with the general regulations and guidelines for postgraduate studies at the University. Refer to the Regulations for Postgraduate Courses of Study in this Prospectus and the General Regulations and Information Prospectus.

IMPORTANT NOTE

Please consult the Faculty of Law Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.1 POSTGRADUATE QUALIFICATIONS OFFERED BY THE FACULTY OF SCIENCE

The Faculty of Science may award the following postgraduate qualifications:

Qualification Code	Qualification Name	Study Period
11MASC	Master of Science (by Thesis)	2
11MSCB	Master of Science (Biodiversity Management & Research)	2
11MSCC	Master of Science in Chemistry	2
11MSIB	Master of Science in Industrial Biochemistry	2
11MSGL	Master of Science in Applied Geology	2
11MSCI	Master of Science in Information Technology	2
11MSCM	Master of Science in Mathematics	2
11MSPH	Master of Science in Physics	2
11MSST	Master of Science in Statistics and Demography	2
11DPSC	Doctor of Philosophy	3

The Faculty may award the degree Master of Science (MSc) by thesis in all the disciplines.

Currently all masters programmes are offered by research except MSc in IT and MSc (Biodiversity Management & Research) but students may be required to undertake specific courses that will enhance their capability in the field of research. Refer to Regulations for Postgraduate studies in this Prospectus and the General Information & Regulations Prospectus.

H.2 MASTER OF SCIENCE IN CHEMISTRY [11MSCC]

H.2.1 ADMISSION REQUIREMENTS

The MSc programme in the Department of Chemistry is open to all Bachelor of Science graduates with NQA level 8 or equivalent qualification and with chemistry as one of their majors. The admission to the MSc programme of the holders of the B.Sc (Chemistry) degree is not automatic. The applicants will be accepted on the basis of their undergraduate record. An average mark of 60% is required. The course normally extends over a minimum period of two years for full-time students.

H.2.2 DURATION OF STUDY

The Master of Science in Chemistry is offered through coursework and thesis, extending over two years for full-time students and three years for part-time students. The coursework is conducted during the first academic year of study and is followed by a supervised original research project extending over the second year. The duration of the MSc in Chemistry is two (2) years for full-time students and three (3) years for part-time students. Relevant committees may grant an extension of registration up to six (6) months beyond the stipulated period if valid reasons are advanced.

H.2.3 CURRICULUM COMPILATION

The curriculum for the MSc in Chemistry consists of coursework and the writing of a research thesis. Refer to the Regulations for Postgraduate programmes in this Prospectus and the General Regulations & Information Prospectus.

SUMMARY TABLE FOR ALL COURSES IN THE PROGRAMME

Course Code	Course Title	NQF Level	Credits	Compulsory (C) /Elective (E)	Prerequisites
Year 1 Semester 1					
UAE 5819	Academic Writing for Postgraduate Students	8		C ₁	
CHM5961	Chemistry Seminars	9	12	C	
CHM5911	Advanced Analytical and Instrumental Methods	9	24	C

Total Credits Year 2					120
Total Credits for the programme					264

H.2.4 MINIMUM REQUIREMENTS FOR RE-ADMISSION INTO THE FACULTY

The applicants will be accepted on the basis of their undergraduate record. An average mark of 60% is required.

H.2.5 ADVANCEMENT AND PROGRESSION RULES

Student must have passed all year 1 courses (144 **credits**) before passing to year 2.
A candidate must first successfully complete the coursework examinations before commencing thesis work.

H.2.6 MAXIMUM NUMBER OF COURSES PER YEAR

Student must have 144 **Credits** before passing to year 2.
Full time students must have 120 **Credits** in year 2, to be able to graduate
Part time students must have 60 **credits** in year 2 to be able to proceed to year 3.

H.2.7 REQUIREMENTS FOR QUALIFICATION AWARD

This qualification will be awarded to candidates credited with a minimum of 264 **credits**, and who have met the requirements of the compulsory and elective sections.

H.2.8 ASSESSMENT CRITERIA

If a student fails the first semester course he/she may proceed to the next semester. However he/she must repeat the course in the following year. A minimum of 50% is required to pass each course.
Coursework component in the first year will be assessed through written tests, laboratory work, seminar presentation and final examination.

H.2.9 PRACTICALS

Four compulsory practical classes (mini Projects) in the chosen field of study are offered in the first semester. Each practical runs over three weeks. A well-written practical report in the form of a journal article should be submitted. All calculations must be submitted separately.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.3.1 ADMISSION REQUIREMENTS

The MSc in Industrial Biochemistry is open to all BSc graduates with NQA level 8 or equivalent qualification and with biochemistry, molecular biology or microbiology as one of their majors. The applicants will be accepted on the basis of their undergraduate record. An average mark of 60% is required.

H.3.2 DURATION OF STUDY

The Master of Science in Industrial Biochemistry is offered through coursework and thesis, extending over two years for full-time students and three years for part-time students. The coursework is conducted during the first academic year of study and is followed by a supervised original research project extending over the second year. Relevant committees may grant an extension up to six (6) months beyond the stipulated period if valid reasons are advanced.

H.3.3 CURRICULUM COMPILATION

H.3.4 MODE OF DELIVERY

Programme is offered either on full time or part time basis.

2 Please note: Academic Writing for Postgraduate students is required but doesn't contribute to the total programme credits.

H.3.5 ASSESSMENT CRITERIA

The curriculum for the Master of Science in Industrial Biochemistry consists of coursework and research leading to a thesis. Coursework component in the first year will be assessed through written tests, laboratory work, seminar presentation and final examination. Each module assessment is based on continuous assessment mark (50%) and examination mark (50%). Continuous assessment mark is computed as 60% test and 40% practical mark. In order to pass a module, a student must obtain a final mark of at least 50%. Refer to specific modules for detailed assessment criteria.

H.3.6 MSC THESIS IN THE SECOND YEAR

A candidate must first successfully complete the coursework examinations before commencing thesis work. The thesis must be drafted in English language and submitted to the supervisor. It must be in the University approved format. The thesis will be evaluated by UNAM approved internal and external examiners. The UNAM grading system will be used for the evaluation. Each student will defend the thesis in a viva voce examination. Refer to the General Information and Regulations Prospectus and Postgraduate Prospectus for detailed information.

H.3.7 ADVANCEMENT AND PROGRESSION RULES

Student must pass all year 1 modules (144 credits) in order to progress to year 2.

H.3.8 MINIMUM REQUIREMENTS FOR RE-ADMISSION INTO THE FACULTY

The applicants will be re-admitted into the department /programme if they have passed at least 33% of their first year modules.

H.3.9 MAXIMUM NUMBER OF MODULES PER YEAR

Maximum number of modules is equivalent to the number of modules offered in the first year (12 modules).

H.3.10 REQUIREMENTS FOR QUALIFICATION AWARD

This qualification will be awarded to candidates credited with a minimum of 264 credits, and who have met all the requirements of the degree programme.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.4 MASTER OF SCIENCE IN MATHEMATICS [11MSCM]

H.4.1 ADMISSION REQUIREMENTS

The MSc Programme in the Department of Mathematics will require a minimum of a BSc, with a Mathematics Major, in the lower second class division or an equivalent qualification at NQF Level 8. That means applicants will need to have attained an average mark of at least 60% in their undergraduate programme. Students who have completed the old BSc Programme in Mathematics must do all courses of the current fourth year programme in order to gain admission to the MSc Programme.

H.4.2 DURATION OF STUDY

The duration of the MSc in Mathematics is two (2) years for full-time students and three (3) years for part-time students. Relevant committees may grant an extension of registration up to six (6) months beyond the stipulated period if valid reasons are advanced.

H.4.3 CURRICULUM COMPILATION

The curriculum for the MSc in Mathematics consists of coursework and the writing of a research thesis. The design of the Programme provides candidates with the opportunity to become pure mathematicians or applied mathematicians due to the introduction of options in the second semester of the first year of study. The MSc in Mathematics will be offered in compliance with the general regulations and guidelines for postgraduate studies in this Prospectus and the Regulations and Guidelines for Postgraduate Programmes and the General Information and Regulations Prospectus.

Note: The student must pass all first year course before (s)he can proceed with the MSc Thesis

H.4.4 ASSESSMENT CRITERIA

If a student fails the first semester course he/she may proceed to the next semester. However he/she must repeat the course in the following year. A minimum of 50% is required to pass each course.

H.4.5 SEMINARS

Students are expected to give a seminar presentation as part of their continuous assessment in each course.

H.5 MSc BIODIVERSITY MANAGEMENT & RESEARCH**[11MSCB]****(In Collaboration with Humboldt)****H.5.1 ADMISSION REQUIREMENTS**

The MSc Biodiversity Management and Research program in the Department of Biological Sciences is open to applicants with at least a Bachelor's degree at NQF level 8 or equivalent with Biology or related majors. The applicants will be accepted on the basis of their undergraduate records with an average mark of at least 60%.

H.5.2 DURATION OF STUDY

The Master of Biodiversity Management and Research is offered through coursework and thesis, extending over two years of full-time study. The coursework is conducted during the first academic year of study and is followed by a supervised original research project extending over the second year.

H.5.3 CURRICULUM COMPILATION

The curriculum for the Biodiversity Management and Research consists of coursework, internship and the writing of a research thesis. Refer to Regulations for Postgraduate studies in this Prospectus and the Regulations and Guidelines for Postgraduate Programmes and the General Information and Regulations Prospectus.

Note: Students select as follows:

- GIS and Remote sensing (EBL5952) **OR** Management of Natural History Collections (EBM5912)
AND
- Functional Biodiversity of Arid and semi-arid Ecosystems (EBF5912) **AND** Functional Biodiversity of Woodlands and Forest Ecosystems (EBF5932)
OR
- Functional Biodiversity of Marine Ecosystems (EBF5952) **AND** Functional Biodiversity of Freshwater Ecosystems (EBF5972)

EBF 5972	Functional Biodiversity of Freshwater Ecosystems	9	18	Elective

YEAR 2

Course Code	Course Title	NQF Level	Credits	Prerequisites	Compulsory/Elective
EBL 5902	Internship	9	9	Student must pass all year modules and register for thesis	Compulsory
EBL5900	Thesis	9	120	Student must pass all year 1 modules	Compulsory

H.5.4 EXAMINATION REGULATIONS

Formal examination will take place at the end of each semester. Examinations will be subject to external assessment. The Admission & Examinations Committee will decide on admission to the module examinations. In addition to module-specific regulations, attendance of at least 80% in a particular module is a requirement for examination admission. Students must pass all modules for them to proceed to the master thesis. A mixture of assessment modes will be used: written, oral or practical examinations, reports and presentations.

H.5.5 FORMAT AND EVALUATION OF THESIS WORK

Before a candidate can proceed to the thesis, he/she must first successfully complete the coursework examinations. Each student will submit a Master Thesis/Dissertation during the second year. The thesis must be drafted in English language. The thesis must be in a format given by the Coordinators. The thesis will be evaluated by the supervisor and another examiner within one month after submission. The UNAM grading system will be used for the evaluation. Each student will defend the thesis in a viva voce examination.

H.5.6 PRACTICALS

Attendance of practical classes, field trips and internship is compulsory.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.6 MASTER OF SCIENCE IN PHYSICS (11MSPH)

H.6.1 ADMISSION REQUIREMENTS

The admission requirement for the proposed M.Sc. programme will be a University of Namibia NQF Level 8 degree in Physics or equivalent degree from a recognised university. The applicant will be accepted on the basis of his/her undergraduate academic record with an average mark of at least 60%. Former UNAM double major Physics graduates may be admitted but will first have to take and pass relevant additional undergraduate courses prescribed by the Department on a case by case basis.

H.6.2 DURATION OF STUDY

The duration of this programme will be two (2) years minimum and three (3) years maximum for full-time students. The first year will mostly consist of coursework, while the second year will be dedicated to a supervised research project and the writing of a thesis.

H.6.3 CURRICULUM COMPILATION

Course Code	Course Title	NQF Level	Credits	Compulsory (C) / Elective (E)	Prerequisites
Year 1 Semester 1					
UAE 5819	Academic Writing for Postgraduate Students	8		C

Year 2 Semester 1 & 2					
PHY5900	MSc Thesis	9	120	C	
Total Credits Year 2			120		
Total Credits for the programme			264		

Total **Credits** = 144 (year 1) + 120 (year 2) = 264

*The credit for the course UAE5819 (a level 8 course) is not included in the total credit of 264.

H.6.4 ASSESSMENT CRITERIA

Formal examinations, subject to external moderation, will take place at the end of each semester of the first year of the programme. A minimum continuous assessment mark of 40% and a minimum of 80% class attendance is required to be admitted to write the examination in a specific course. Students must pass all courses in order to proceed to the thesis component of the degree. In all cases, a minimum mark of 50% is required to pass.

H.6.5 FORMAT AND EVALUATION OF THESIS

During the thesis year, the student shall conduct supervised research in a Senate approved field of study. At the end of this year, the candidate must submit a completed Master Thesis/Dissertation in the English language. This thesis must be in a format prescribed by the Department as per University regulations. The completed thesis will be evaluated by the supervisor(s) and one (or more, if needed) external examiners, normally within a month after submission. The student will be expected to successfully defend his/her thesis in a viva voce examination.

H.6.6 PRACTICALS

Attendance of practical classes, experiments, projects, field trips and/or internships as prescribed by the course lecturers and thesis supervisor(s) are compulsory.

H.7 MASTER OF SCIENCE IN APPLIED STATISTICS AND DEMOGRAPHY [11MSST]

H.7.1 ADMISSION REQUIREMENTS

The MSc Programme in the Department of Statistics will require a minimum of a BSc, with a Statistics or Population studies Major, in the lower second class division (60-69%) or an equivalent qualification

H.7.2 DURATION OF STUDY

The Master of Science in Applied Statistics and Demography cannot be completed in less than two (2) years. The programme must be completed within three (3) years of full-time study.

H.7.3 CURRICULUM COMPILATION

The curriculum for the MSc Applied Statistics and Demography consists of coursework and the writing of a research thesis. Refer to the Regulations for Postgraduate Courses of study in the General Prospectus: Information, Regulations & Fees.

Course Code	Course Title	NQF Level	Credits	Compulsory (C) /Elective (E)	Prerequisites
Year 1 Semester 1					
UAE 5819	Academic Writing for Postgraduate Students	8		C

Year 2 Semester 1 & 2					
STM5900	MSc Thesis	9	120	C	Pass all first year courses
Total Credits Year 2			120		
Total Credits for the programme			264		

H.7.4 ASSESSMENT CRITERIA

If a student fails the first semester course he/she may proceed to the next semester. However he/she must repeat the course in the following year. A minimum of 50% is required to pass each course.

H.7.5 PRACTICALS

All practicals are compulsory.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.8 MASTER OF SCIENCE IN INFORMATION TECHNOLOGY [11MSCI]

H.8.1 ADMISSION REQUIRMENTS

The applicants will be accepted on the basis of their undergraduate records. The Master of Science in Information Technology programme is open to all Bachelor's degree holders with Computer Science major or Computer related field and with a minimum average pass mark of 60%.

H.8.2 DURATION OF STUDY

The Master of Science in Information Technology is offered through coursework and thesis, extending over two years for full-time students and three years for part-time students. The coursework is conducted during the first academic year of study and is followed by a supervised original research project extending over the second year.

H.8.3 CURRICULUM COMPILATION

The curriculum for the MSc. degree consists of the writing of a research thesis. Refer to Regulations for Postgraduate studies in this Prospectus and the Regulations and Guidelines for Postgraduate Programmes and the General Information and Regulations Prospectus.

FIRST YEAR MODULES

ALL courses are compulsory

The following courses are offered in the first semester with a three hours examination paper written in June. The courses are not necessarily offered every academic year.

UAE5819 Academic Writing for Postgraduate Students
CMP5931 Discrete Mathematics
CMP5951 Computer Graphics
CMP5971 Advanced Operating Systems

Second Semester

ALL courses are compulsory

The following courses are offered in the second semester with a three hours examination paper written in November. The courses are not necessarily offered every academic year.

YEAR 2

CODE	COURSE TITLE	PRE-REQUISITES
SEMESTER 1 AND 2		
SCMP5900	Thesis	Passed ALL first year modules

H.8.4 EXAMINATION REGULATIONS

Formal examination will take place at the end of each semester. Examinations will be subject to external assessment. The candidate should pass the formal examinations in the taught courses before registering for the Thesis. A candidate who fails any part of his/her Master's Degree Programme and who is allowed to repeat that part may be exempted by Senate, on the recommendations of the Departmental panel of examiners from those courses or components from that part s/he passed.

H.8.5 FORMAT AND EVALUATION OF THESIS WORK

A candidate shall be required to submit a complete report in loose bound form for verification and approval to the concerned supervisors in the following format: Paper size: A4 (International format, 210 x 297 mm) Line space:1.5 Top and Bottom margins: 20mm Left margin: 30mm Right margin: 10 mm Figures/flowchart/circuits/block diagrams: No restrictions. Font size: 12 After the dissertation has been approved by the panel the candidate shall submit at least four bounded copies with the chairman of the department in accordance with the following specifications: Colour of the report: White Type of binding: Artvillum or cloth Front page should include: University Logo Title of the Project Title of the Degree Name of the candidate Month and Year The relevant department will retain one copy and two copies will be deposited in the university Library. Unless Senate has agreed to the contrary the Library copies shall be open to public reference. **One copy to the supervisor.** The candidate should submit the completed project work in all respects before the end of the academic calendar as announced by the respective department. The candidates will be informed in advance the date, time and the venue of the viva-voce examination. Concept and Evaluation of Mini Project: Concept of mini project is introduced in each course in order to strengthen the programming skills and ideas to develop the real time project as the time goes. It not only gives the skills but also gives the confidence in the candidates to go ahead with the project developments and practical implementations with different types of tools. The evaluation will be done by a group of examiners constituted by the course co-ordinator. The candidate has to submit a complete project report according to the format given by the respective supervisors. Evaluation also involves the demonstration and viva-voce.

H.8.6 PRACTICALS

Attendance of practical classes is compulsory.

NB: STUDENT MUST PASS ALL COURSES AND PRE/CO-REQUISITES AS LISTED FOR THE PARTICULAR COURSES. THIS SECTION LISTS ALL THE COURSE CODES FOR MSC (IT), FOLLOWED THEREAFTER BY THE COURSE CONTENTS IN THE SAME ORDER.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.9 MASTER OF SIENCE IN APPLIED GEOLOGY**[11MSG1]****H.9.1 ADMISSION REQUIREMENTS**

To register for a MSc postgraduate degree programme a candidate must hold a BSc Honours degree in Geology (NQF level 8) or a recognized equivalent qualification. The applicants will be accepted on the basis of their undergraduate record. An average mark of 60% is required.

H.9.2 DURATION OF STUDY

The study duration shall be two years for full time students. The maximum study period shall not exceed three years. An extension of registration beyond the stipulated maximum study period may be granted by relevant committees if valid reasons are advanced.

H.9.3 CURRICULUM COMPILATION

*The credit for the course UAE5819 (a level 8 course) is not included in the total credit of 264.

H.9.4 MODE OF DELIVERY

The programme is offered on a full-time basis on a block module schedule over a period of two years for full time students. The mode of teaching will include lectures, seminars, laboratory practicals, field practicals, site visits, case studies and group projects.

Student intake into the first year will be done every two years due to the limited human resources in the geology department so that modules are offered only every second year (first year modules in odd years [i.e. 2013, 2015,...] and second year modules in the even years [i.e. 2014, 2016,...]). Yearly intake will be considered once the capacity of the department has expanded within the anticipated growth of the Science Faculty.

H.9.5 ASSESSMENT CRITERIA

Assessment criteria are based on written examinations (50%) and continuous assessments (50%) based on tests, assignments, field studies, industrial attachment, laboratory practicals and seminar presentations for each module as well as the final master thesis which is based on a research project. A minimum of 50% is required to pass each course and a student is required to attend 80% of all lectures and practicals. The thesis will be supervised by a PhD holder and examined by at least one internal and one external examiner of a recognized institution.

H.9.6 ADVANCEMENT AND PROGRESSION RULES

Students must pass all first year courses (132 credits) in order to advance to the second year of study. A candidate must pass all first year coursework examinations before commencing with the MSc thesis.

H.9.7 MINIMUM REQUIREMENTS FOR RE-ADMISSION INTO THE FACULTY

To be re-admitted to the Faculty of Science for a particular year of registration, a student must have passed the minimum number of modules required as indicated below:

- 4 modules (equivalent to 96 credits) by the end of the first year.

H.9.8 MAXIMUM NUMBER OF COURSES PER YEAR

The maximum number of courses in year one are eleven (11) with a total of 132 credits, including field work, technical visits and industrial attachments. The maximum number of courses in the second year is six (6) with a total of 72 credits. The MSc thesis (60 credits) is scheduled in the second year.

H.9.9 REQUIREMENTS FOR QUALIFICATION AWARD

This qualification will be awarded to candidates credited with all 264 credits, and who have met the requirements of the compulsory courses, industrial attachments, field and laboratory practicals as well as the project thesis. In addition students are required to provide proof of competency of at least one foreign language other than English. It is recommended that students should learn a language that is relevant in internationally operating companies (this is a fact for all major mining companies operating in Namibia and also a request from AREVA) such as French, Russian, German or Chinese. The language course(s) will be offered in consultation with the UNAM Language Centre (non-degree purposes).

Student will graduate with an MSc in Applied Geology, either majoring in Exploration & Economic Geology or majoring in Environmental Geology & Hydrogeology depending on the elective courses a student chooses in year two of the programme.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

H.10 DOCTOR OF PHILOSOPHY (PHD) [11DPSC]

The degree of Doctor of Philosophy (PhD) in approved disciplines will be offered in compliance with the general regulations and guidelines for postgraduate studies at the University. Refer to the Regulations for Postgraduate Programmes in this Prospectus and the General Regulations and Information Prospectus.

H.10.1 ADMISSION REQUIREMENTS

Possession of a good M.Sc. degree. Working experience is highly recommended. Admission will depend on availability of suitably qualified supervisors in the respective field of research.

IMPORTANT NOTE

Please consult the Faculty of Science Prospectus for detailed information regarding the course descriptors of all qualifications offered in the Faculty

I. REGULATIONS AND GUIDELINES FOR POSTGRADUATE PROGRAMMES

I.1. PREAMBLE

The guidelines and regulations presented in this prospectus are intended to familiarize Departments, Centres, Faculties and candidates with the University of Namibia's (UNAM's) sound and well co-ordinated Postgraduate programmes.

I.2. POSTGRADUATE TRAINING PROGRAMMES AT UNAM

I.2.1 POSTGRADUATE DIPLOMA COURSES

- 1) UNAM makes provision for Postgraduate Diploma courses in selected fields, as recommended by UNAM's Faculties, Centres and Institutes, the School of Postgraduate Studies, and approved by Senate.
- 2) Postgraduate Diploma courses offer specialized training, which is career-oriented. Students with a general undergraduate degree, who want to pursue a teaching career, would, for example, be advised to enroll for a Postgraduate Diploma course in Education.
- 3) The Postgraduate Diploma courses normally have a minimum of **one year** duration for **full-time** students, and **two years** for **part-time** students; are **taught** courses (i.e., involve lectures, seminars, practicals, written tests and examinations, etc.); and also include a small independent research component.

I.2.2 MASTER'S DEGREE COURSES

- 1) Postgraduate training programmes at Master's degree level are of two types:
 - (a) Programmes whereby the Master's degree is pursued by research alone, entailing the writing of a thesis, in accordance with guidelines provided by the Postgraduate Studies Committee.
 - (b) Programmes developed by various Faculties / Centres / Institutes, involving one academic year of coursework study, followed by written examinations, and then up to one academic year of research and writing a thesis, as a partial fulfilment of the requirements for the Master's degree.
- 2) Students admitted to both taught and research Master's degree courses have the option of doing their Master's studies on a **full time** or **part time** basis. Full time students shall complete their Master's degree programmes within **two** academic years. Part-time students will be allowed up to **three** years to complete their programmes. An extension of the registration period of up to six (6) months beyond the stipulated deadlines **may** be granted by relevant committees, if valid reasons are advanced.
- 3) Senate approval is required for any Faculty to run Master's programmes with the duration of one academic year.
- 4) Heads of the various academic Departments at UNAM are requested, when applying for the approval of new programmes, to indicate whether they have adequate staff strength to mount Master's degree programmes by course work and/or thesis, and also to submit names of staff members who have the necessary research and training experience to serve as supervisors for Master's degree candidates in their respective fields. Departments should only offer programmes when they have adequate numbers of qualified staff.
- 5) Where experts in relevant academic fields are to be found in various Ministries and other institutions outside UNAM, such experts will be co-opted as co-supervisors of the postgraduate students. Such potential external supervisors will be encouraged to propose thesis research areas which, in their opinion, are areas of high research priority, with respect to the socio-economic needs of Namibia.

I.2.3 DOCTORAL COURSES

- 1) Doctoral study opportunities at UNAM are offered to candidates who have the necessary qualifications for admission, where the relevant Department has the necessary research facilities and infrastructure, and where sufficiently qualified and experienced academics are available and ready to provide effective supervision.
- 2) Doctoral courses at UNAM are normally undertaken by research and the writing of a dissertation. The duration of a doctoral programme is a minimum of three (3) years for full-time students, and five years for part-time students. An extension of the registration period of up to six (6) months beyond the stipulated deadlines **may** be granted by relevant committees, if valid reasons are advanced.
- 3) Heads of academic Departments at UNAM are requested to propose names of experienced academic members of staff in their fields who can effectively supervise postgraduate students, and also academically qualified persons, who could be appointed as co-supervisors of prospective doctoral students applying for admission in their Departments.

I.2.4 HIGHER DOCTORATES

- 1) UNAM also makes provision for the award of Higher Doctorate Degrees. These are awarded to scholars who have made original contributions of international standard in their respective fields of specialization.
- 2) UNAM scholars who consider themselves qualified for Higher Doctorate awards must submit their applications for their candidacy to the Dean of their respective Faculty through Heads of the relevant Departments.
- 3) The respective Faculty concerned screens the application and recommends to the Postgraduate Studies Committee whether or not, in the opinion of the Faculty, the applicant qualifies as a candidate for UNAM's Higher Doctorate.
- 4) The following Higher Doctorate degrees will be awarded:
 - (a) Doctor of Education (D.Ed.): for successful candidates in the field of Education;
 - (b) Doctor of Literature (D.Lit.): for successful candidates in the Humanities, Economic and Social Sciences, and in the Visual and Performing Arts;
 - (c) Doctor of Laws (LL.D.): for successful candidates in the field of Law;
 - (d) Doctor of Science (D.Sc.): for successful candidates in the Agricultural, Engineering, Medical and the Natural Sciences

I.2.5 APPROVAL OF POSTGRADUATE PROGRAMMES

Before all postgraduate programmes are recommended by the Academic Planning Committee (APC), to Senate for approval, they should be considered by the Postgraduate Studies Committee to ensure that they adhere to UNAM regulations and standards of quality.

I.3. ELIGIBILITY FOR ADMISSION

I.3.1 POSTGRADUATE DIPLOMA

- 1) Prospective candidates must be in possession of a Bachelor's degree from an accredited institution.
- 2) Students who do not comply with (1) above, but whose field experience and work accomplishments have been certified by the relevant Faculty/Department/Institute to be equivalent to a Bachelor's degree, may, under special circumstances, also be considered for admission.

I.3.2 MASTER'S DEGREE

- 1) Prospective students must be in possession of a good Bachelor's degree with at least a C-grade average (i.e., 60-69% average), or a good Postgraduate Diploma from a recognized Institution.
- 2) Students without a Bachelor's degree or a Postgraduate Diploma from UNAM, but who hold qualifications from an approved institution of higher learning, deemed to be equivalent to a good Bachelor's degree or a good Postgraduate Diploma from UNAM may also be considered for admission.

- 3) Prospective students must also satisfy specific requirements of the Faculties where they intend to enroll (e.g. teaching experience for M.Ed. admission.)

I.3.3 DOCTOR OF PHILOSOPHY DEGREE AND OTHER DOCTORAL PROGRAMMES

- 1) Candidates for admission to doctoral programmes of UNAM must be in possession of a Master's degree or equivalent from a recognized institution of higher learning in the chosen field of study.
- 2) Candidates with only the Bachelor's degree may initially be enrolled for a Master's degree by research only. If, during the first year of research they demonstrate exceptional abilities, they may be considered for upgrading into the Doctoral Programme.

I.3.4 HIGHER DOCTORATES

- 1) To qualify for a Higher Doctorate candidacy of UNAM, the scholars should be:
 - (a) graduates from the University of Namibia with the following minimum qualifications:
 - * bachelor's degree of at least 15 years standing; or
 - * Master's degree of at least 10 years standing; or
 - * Doctoral degree of at least 8 years standing; or
 - (b) graduates from any other recognized institution of higher learning, who have served at UNAM for at least five years in teaching, research or other approved academic roles, and who satisfy the criteria equivalent to those set under (1) (a) above.
- 2) Only outstanding scholars whose contributions have attained national and international recognition will be considered for Higher Doctorate awards.

I.4. REGULATIONS AND GUIDELINES GOVERNING POSTGRADUATE TRAINING AT UNAM

I.4.1 PROCEDURES TO APPLY FOR POSTGRADUATE STUDIES

UNAM welcomes students with a range of qualifications from all over the world. You are advised to fulfill the minimum admission requirements for entry as well as English Language requirement (if relevant) as indicated. Please note that competition for places in some programmes is extremely high, and that the minimum requirement given may not be sufficient to secure an offer. Due to this, students may be requested to sit for a selection test.

Before completing the application form, please familiarize yourself with all aspects pertaining to postgraduate studies as set out in this prospectus. You are strongly advised to ensure that you send all relevant documentation with your application form, together with a non-refundable application fee. Receipt of your application will be acknowledged by mail. Incomplete applications will not be considered. If you apply for a qualification by research alone, please ensure that you attach to the application form proposed_research topic, consisting of an outline of a research proposal, indicating the suggested research topic, stating the research problem to be tackled, the proposed research methods, etc.

Postgraduate degrees by coursework:

Unless otherwise stated, applications for taught courses should be made on a University application form which is available on request from the Office of the Registrar, Student Records Section, University of Namibia, and can also be downloaded from the UNAM Webpage: <http://www.unam.na>

The closing date for all postgraduate applications is **31 July** of each year (**No late applications will be accepted after this date**).

Postgraduate degrees by Thesis/ Dissertation only:

The completed and processed application forms will be forwarded by the Student Records Section to the Faculty Officer: School of Postgraduate studies who will scrutinize your application to ensure that you fulfill the minimum admission requirements. The Faculty Officer will forward your application to the relevant Faculty Admission Committee for consideration which may require the candidate to be interviewed. The relevant Department will allocate you a Supervisor, according to your field of study who will confirm the recommendation in writing. Students need to submit this confirmation letter to the Office of the Registrar in order to be registered for the Research Proposal. Please update yourself on the different modes of the programmes offered (e.g. by coursework and thesis or by thesis only). If the postgraduate programme is only offered by thesis, the Supervisor will inform you on the following:

- 1) The way forward with regard to writing the Research Proposal - there should be an agreement between the student and the Supervisor on how the Research Proposal should be written. Students

should decide on their own topic and follow the instructions on how to write research proposals as given in Annex 1.

- 2) The procedures on submitting your Research Proposal.
- 3) Different committee systems to evaluate, recommend and approve the Research Proposal.
- 4) The importance to keep to registration deadlines for draft and final submissions.
- 5) Inform the student when to register for the Master's Thesis or Doctorate Dissertation after final approval by the Postgraduate Studies Committee and Senate.

I.4.2 STUDY PERMIT REQUIREMENTS

According to the Immigration Control Act of 19 August 1993, all International students (SADC and Non-SADC) should be in possession of a valid approved Study Permit and Visa before entering Namibia for the purpose of studying. All prospective, first and senior students are required to apply for a Study Permit and Visa on the prescribed forms obtainable from the University of Namibia or at the Namibian Embassy in your country or the nearest Namibian Embassy.

Only persons with permanent Namibian Residence, Refugees or Asylum Seekers and Diplomatic representatives are exempted from applying for a Study Permit and Visa. The mentioned categories are exempted on condition that they provide the relevant documentation (i.e. Permanent Residence Permit, approved and endorsed Refugee/ Political Asylum Seekers status, a Courtesy Visa which confirms diplomatic status) to the University of Namibia.

Study Permits, Work Permits and Tourist Visas are not interchangeable. Kindly note that should you be in possession of a work permit, you will still need to apply for a study permit if you are offered provisional admission to the University of Namibia. It is not allowed to enter Namibia on a visitor's visa in the hope of filing an application for a study permit from within Namibia. All applications for study permits should be submitted and issued before entering Namibia.

I.4.3 REGISTRATION OF THE SELECTED CANDIDATES

- 1) Candidates who are registered in programmes involving coursework and a thesis/ dissertation will be required to enroll in recommended faculty **core** and **elective** (optional) courses, as prescribed in the relevant Faculty Prospectus and in the School of Postgraduate Studies Prospectus under the relevant Faculty.
- 2) On the basis of the availability of qualified staff in the department, candidates will be registered for the research proposal. The final registration of the candidates will be undertaken after the approval by the Postgraduate Studies Committee of their fully fledged research proposal.
- 3) All Postgraduate Students shall be required to register for the compulsory course on "Academic Writing for Postgraduate Students".
- 4) The Committee will, in consultation with relevant Faculties, recommend to Senate the appointment of supervisors to guide prospective thesis /dissertation candidates.

I.4.4 ENROLMENT IN SPECIFIC COURSES

Candidates who are registered for postgraduate study by thesis/dissertation alone may, if recommended by relevant Faculties and approved by the Postgraduate Studies Committee, be required to enroll in selected courses, which will help to bridge any gaps in their earlier training or expose them to new developments in their study disciplines.

I.4.5 SANDWICH POSTGRADUATE TRAINING

- 1) Where the staffing strength and the teaching and research equipment for postgraduate training at UNAM can be complemented by co-operation linkage agreements with institutions abroad, sandwich postgraduate training programmes are to be established and jointly run.
- 2) Through sandwich arrangements, candidates will undertake part of their training in suitable institutions abroad, and also benefit from co-supervisors from institutions with which UNAM will establish co-operation linkage agreements.

I.4.6 COURSEWORK EVALUATION AND GRADING

- 1) Candidates who are registered for lectured postgraduate courses will be examined according to procedures approved by Senate.
- 2) In all Faculties/Institutes, the meaning attached to letter grades awarded by examiners is as follows:

<u>Grade</u>	<u>Interpretation</u>	<u>% Equivalence</u>
A	Distinction	80 and above
B	Very Good	70 – 79
C	Good	60 - 69
D	Satisfactory	50 - 59
E	Fail	49 and below

- 3) Before a candidate can proceed to the thesis/dissertation research phase (in the case of the coursework and dissertation students), s/he must first successfully pass the coursework examinations. Successful completion of the coursework phase shall mean attaining at least a D-grade average.
- 4) Supplementary examinations as contained in General Information and Regulations Prospectus will apply to postgraduate students.

I.4.7 THESIS/DISSERTATION RESEARCH

- 1) Candidates who successfully complete the coursework phase, or who are registered for postgraduate study by thesis/dissertation research alone, undertake research in an approved research topic, and write a thesis/dissertation. This shall normally be after a specified period set by the relevant Committees and approved by Senate.
- 2) **Thesis** and **Dissertation** research may include an artistic/aesthetic component, presented in the form of a composition, a theatre/musical performance, and/or an exhibition of original works, as a partial fulfilment of the requirements for a **Master's** or **Doctoral** degree, respectively.
- 3) The candidates shall be assigned supervisors to guide them in their research programmes, and shall write their theses/dissertations in accordance with the guidelines provided by the Postgraduate Studies Committee and approved by Senate.
- 4) As a standard practice, every thesis/dissertation shall be accompanied by a declaration stating that it has not been submitted for a similar degree in any other university.
- 5) The thesis must contain a concise and comprehensive abstract of between 200-300 words and 300-400 words for the dissertation, indicating the main findings and major conclusions of the research.
- 6) Every Master's thesis submitted shall be examined by at least two specialists approved by Senate on recommendation by the Postgraduate Studies Committees. At least one of these specialists must be external to UNAM. In the case of doctoral dissertations, at least three examiners shall be appointed, of whom one must be external to the University. **The supervisor should not be one of the examiners.**
- 7) The examiners shall be required to submit a detailed assessment of the thesis/dissertation, and also write definite recommendations on whether the degree should be awarded to the candidate unconditionally, or whether the degree should be awarded subject to specified corrections/revisions being made, or whether the thesis/dissertation should be referred back to the candidate for re-writing and re-submission, or whether the thesis/dissertation should be rejected outright. (See Annex 3 for more details)
- 8) In cases where the difference in the mark allocated for a thesis, by the internal and external examiner, is 20% and more, the Head of Department shall study the case and recommend a mark for the thesis to the Postgraduate Studies Committee and Senate.
- 9) In cases where the examiners of the thesis/dissertation disagree in their recommendations, the Postgraduate Studies Committee shall study the case and recommend to Senate the appointment of an additional independent examiner to serve as referee on the thesis/ dissertation.
- 10) A postgraduate candidate, who disagrees with the results of the examination as approved by Senate, may appeal, giving reasons and evidence to support the appeal. Senate will then have the case examined by an Appeals Committee.
- 11) Candidates who are registered by thesis/dissertation research alone (both Master's and Doctoral students) will normally appear for **viva voce** examinations. These will be conducted in accordance

with the procedures approved by Senate on recommendation by the Postgraduate Studies Committee. (See Annex 3)

I.4.8 REGULATIONS AND GUIDELINES FOR HIGHER DOCTORATES

- 1) Candidates for Higher Doctorates must submit to the relevant Faculty Dean, through the respective Head of Department:
 - (a) a complete Curriculum Vitae, showing their academic, research, and publication experience and records;
 - b) a unifying statement (in their fields of specialization) of not more than 5000 words, which sums up their contributions to knowledge and scholarship;
 - (c) a sample of reprints (or copies) of their important and original works.
- 2) The candidates must supply the unifying statement and copies of publications in four sets. Published works shall mean what is printed as a book, or papers published in reputed journals, or work already accepted as being equivalent to a publication. Emphasis on published work ensures that the work submitted for assessment has already benefited from criticism and evaluation by peers.

I.4.9 CONFERMENT OF DEGREES

Higher Doctorates

- 1) The final approval on the degree awarded to prospective candidates shall be granted by UNAM Senate on recommendation by the Postgraduate Studies Committee, (after assessing the recommendations by the external examiners).
- 2) The successful Higher Doctorate candidates shall each be required to deliver a public lecture in their respective fields of specialization within a year of the degree award.
- 3) Unsuccessful candidates may not be allowed to re-apply for the same degree within at least three years of the previous application.

I.4.10 SUBSEQUENT PUBLICATION FROM A THESIS/DISSERTATION

Papers or publications extracted from a thesis/dissertation submitted for a postgraduate degree of UNAM must contain a statement acknowledging that the work is based on a thesis/dissertation submitted to the University of Namibia.

I.5. GUIDELINES ON THE WRITING OF THESIS/DISSERTATION RESEARCH PROPOSALS

- 1) The terms "thesis" and "dissertation" carry different connotations in various countries.
- 2) At the University of Namibia, the terms are conceived in the context of common usage in many universities, whereby the term **thesis** is used for a written document presenting the results of research by Master's degree candidates, while a **dissertation** refers to a corresponding document submitted by doctoral candidates.
- 3) The guidelines to supervisors define what is expected of theses and dissertations, respectively.
- 4) Applicants for admission to postgraduate training programmes by research only and by coursework and thesis/dissertation shall be required to write thesis/dissertation research proposals. (Refer to Annex 1).
- 5) The Director: School of Postgraduate Studies shall issue research permission letters to postgraduate students after their research proposals have been approved by the UNAM Postgraduate Studies Committee.

I.6. GUIDELINES ON THE TEACHING AT POSTGRADUATE LEVEL

- 1) To teach and supervise students at the master's and doctoral programme levels, a member of staff shall have a doctoral degree in the discipline of the postgraduate programme being offered.
- 2) Members of staff with lower qualifications but with specialized expertise can co-teach with members of staff holding doctoral degrees.

I.7. GUIDELINES ON THE SUPERVISION OF RESEARCH BY POSTGRADUATE CANDIDATES

I.7.1 INTRODUCTION

- 1) Every postgraduate candidate shall be assigned a supervisor nominated by the relevant Department and approved by Senate on recommendation by the Postgraduate Studies Committee. This shall be both for lectured and independent research courses. Where the student's research topic is multidisciplinary in nature, or where the need for additional expert supervision in the same discipline exists, or where the candidate's postgraduate training programme involves sandwich arrangements, one or more additional supervisors will be appointed.
- 2) Postgraduate student supervisors will be appointed from amongst suitably qualified members of the Faculties/Centres.
- 3) A list of recommended supervisors, with the abridged curriculum vitae of each supervisor, shall be submitted by the relevant Department for approval to the first Postgraduate Studies Committee meeting of each academic year.

I.7.2 GENERAL DUTIES AND RESPONSIBILITIES OF POSTGRADUATE SUPERVISORS

- 1) The supervisor should have a thorough understanding of the University's Postgraduate Regulations and Guidelines, in order to effectively guide the candidate towards attaining the stipulated standards.
- 2) A supervisor shall be allowed to supervise postgraduate students only in his/her field of study, expertise and research experience. This will help to ensure high standards of attainment, and to avoid possible embarrassments resulting from the rejection of theses/dissertations by examiners. To supervise Master's and Doctoral level candidates adequately, the supervisor should have a doctoral degree. He / she can co-supervise with members of staff holding a Master's qualification but who have specialized expertise.
- 3) The supervisor has the responsibility of knowing his/her students well, and of being familiar with whatever special problems they may have. Where the problems affect the candidate's research progress, s/he shall communicate these to the Postgraduate Studies Committee through the Head of the relevant Department and the Dean of Faculty, in good time.
- 4) Supervisors should know what is expected of them when supervising Master's degree theses and Doctoral dissertation research respectively. Thus they should understand that:
 - (a) The Master's thesis research programme is designed as a **training** course, whereby it is intended that the candidate will:
 - * be exposed to the fundamentals of research,
 - * acquire certain new techniques and methods of research,
 - * learn how to present the results of research in a scholarly manner, and
 - * make some contribution to knowledge.
 - (b) Master's candidates require close and careful supervision because they usually lack previous research experience, especially during the early stage when learning about research methodology, experimental design and research technique and also when preparing the initial drafts of their theses.
- 5) The doctoral dissertation, unlike the Master's thesis, is recognition of successful postgraduate **research experience**. The supervisor of a Doctoral student should recognize that the candidates, in most cases, will have acquired some research experience when they were Master's degree candidates. What is expected of the Doctoral candidate is thus qualitatively and quantitatively very much more than outlined above for Master's degree candidates. Here the supervisor expects the candidate to:
 - * make a **distinct and original contribution to knowledge**, of fact and/or theory;
 - * produce a considerable amount of **original work**;
 - * undertake a more critical and extensive review of the relevant literature than is the case for Master's candidates, and
 - * exercise considerably more initiative in conducting the research.
- 6) After completion of a research proposal, the doctoral candidate should be able to work **independently** and to be **guided** rather than directed by his/her supervisor. It will, nevertheless, remain the supervisor's responsibility to guide the candidate in the right direction.

- 7) During the initial phase, the supervisors have the responsibility of assisting their candidates in the design and formulation of appropriate postgraduate research projects. The proposed research topic must be approved by relevant Faculty Postgraduate Studies Committees, through relevant Faculty Boards before the candidate formally begins to undertake his/her research.
- 8) At the end of each semester, the supervisor shall provide an evaluation of the candidate's progress, presenting his/her assessment as to whether the candidate has the potential to produce an acceptable master's thesis or doctoral dissertation, or whether he/she should be advised to withdraw (refer to Annex 10 for the format of the progress report).
- 9) The supervisors must be able to look ahead and recognize potential impediments to the research problem in good time. They should be able to determine, through their previous research experience, what can be achieved meaningfully by their postgraduate students, within the time allocated for the study.
- 10) In order to ensure that the thesis/dissertation research proposals benefit from inputs from other academics in the Departments, every Faculty offering postgraduate courses shall, in consultation with the supervisors, arrange research seminar series, which will enable the candidates to stand on their own feet, and to think carefully about why they proposed to use approaches which they intend to adopt in their research etc.
- 11) The supervisors have the responsibility of monitoring the candidate's research progress throughout the research period. There are various methods through which they could be kept up-to-date about the candidate's research progress:
 - (a) both the supervisor and the candidate must submit written reports on the progress of the student to the Faculty and the School of Postgraduate Studies before the end of each semester.
 - (b) holding regular discussions where modifications to the original research methods should be made, in view of the research findings and on areas which require new emphasis;
 - (c) participation in the research seminar series suggested above, where the candidate could present any breakthroughs s/he may have made in the research, and benefit from other scholars' inputs during the discussions.
- 12) The supervisor ultimately has the responsibility of, in the end, assisting the candidate to give an appropriate title to the thesis/dissertation, and to guide him/her on the presentation of the research results in the form of a scholarly thesis/ dissertation, in accordance with the set guidelines.
- 13) Although the writing of the postgraduate thesis/dissertation is entirely the responsibility of the candidate, it is the supervisor's role to ensure that the standards set by the University are adhered to. The supervisor should:
 - (a) be accessible to the candidate during the critical stage of thesis/dissertation writing;
 - (b) discuss the drafts of the thesis/ dissertation with the candidate throughout the process;
 - (c) read the candidate's thesis/ dissertation carefully and critically, indicating where improvements are needed, e.g., where there is paucity of information, and where the important findings could be published, or should be published, etc.;
 - (d) at the conclusion of the work, read the entire thesis/ dissertation, and advise whether or not it is in a form suitable for presentation to examiners; but
 - (e) should not be responsible for personally editing language usage in the thesis, or correcting typographical errors. He/she should however, point out language errors.
- 14) Towards the end of the research phase, the Head of the relevant Department should present to the Faculty Postgraduate Committee names and addresses, as well as abridged curriculum vitae, of experts in the candidate's research topic, who could be nominated by the relevant Faculty Postgraduate Committee as external examiners for the candidate's thesis/ dissertation. Examiners shall not be selected from the pool of examiners already approved for courses in the specific programme.
- 15) If the candidate has two or more supervisors, one of these should be appointed Chairperson of the Supervisory Committee. If the main supervisor should be away from the University for more than three consecutive months, an acting supervisor is appointed to guide the candidate in the interim.
- 16) If, in the course of the candidate's research, a situation develops whereby:
 - (a) there is a breakdown in communication between the student and the supervisor;
 - (b) there are personal clashes and conflicts between the two;

- (c) the candidate refuses to follow the supervisor's advice, both the supervisor and the candidate should report the problem in writing to the Head of the relevant Department, with a copy to the Chairperson of the Faculty Postgraduate Studies Committee for appropriate action. Where necessary a new supervisor could be appointed; the student could be discontinued from studies; the supervisor or the candidate could be warned of any weaknesses.
- 17) Since the supervisor's responsibility is so central and critical in postgraduate student research, and since the task of supervising postgraduate student research is time-consuming, it is decided that:
- (a) in order to ensure adequate supervision, a single staff member shall not supervise more than five (5) postgraduate candidates;
 - (b) staff members' supervision responsibilities should be taken into consideration by Heads of Departments when other teaching duties are assigned

1.8. REGULATIONS AND GUIDELINES GOVERNING THE SUBMISSION OF THESES AND DISSERTATIONS

- 1) At least three months prior to the scheduled date for the submission of the thesis/dissertation, the respective postgraduate candidates shall, through their supervisors, Departments, Faculties and Institutes, submit a notice, in writing, to the Chairperson of the Postgraduate Studies Committee, declaring their intention to submit their theses/ dissertations.
- 2) The notice shall be accompanied by an **abstract** of the thesis/dissertation of between 200-300 words in the case of Master's theses, and 300-400 words for Doctoral dissertations. The abstract shall be a synopsis of the methodology of the research undertaken, the findings, and the major conclusions reached.
- 3) The abridged curriculum vitae of internal and external examiners nominated by relevant Faculty Postgraduate Committees shall be submitted together with the notice, for approval by Senate on recommendation by the Postgraduate Studies Committee (see Annex 12 for the format of the abridged curriculum vitae).
- 4) The Director: School of Postgraduate Studies shall issue a letter of appointment to the thesis/ dissertation examiners.

1.9 POSTGRADUATE FEES

- 1) All registered candidates shall pay the various categories of fees as approved by the University Council on recommendation of appropriate Committees of UNAM.
- 2) The work of students whose fees are in arrears will not be assessed until the arrears have been cleared.

ANNEX 1

GUIDELINES ON THE WRITING OF RESEARCH PROPOSALS

Preamble

These guidelines have been developed for prospective postgraduate candidates, who are about to enter into the research phase of their studies, in an attempt to ensure that they embark on their research with a clear focus, and in the right direction. In preparing their research proposals, both for Master's and Doctoral work, prospective candidates should consult with Heads of relevant Departments, who will refer them to lecturers and Professors with relevant experience and expertise. Moreover, prospective candidates should work closely with their supervisors when preparing their research proposals

Tentative Title

The title of the thesis/dissertation research proposals should be clear and concise. From the title, one should be able to infer clearly the subject of the thesis/dissertation. This means that the title should be self-explanatory and limited to the scope of the study.

1. **Title** of the proposed study (refer to Annex 7 for the format of the title page)
2. **Introduction**
 - 2.1 **Orientation of the proposed study**

In a general overview and using key literature pieces, students should state research concerns, disagreements, controversies, unanswered questions and gaps in knowledge that give rise to research problems of their interest.
 - 2.2 **Statement of the problem**

Students should concisely formulate their research problems by clearly indicating research issues they would like to investigate in their studies. This should include the purposes of their studies
 - 2.3 **Either objectives of the study or research questions (NOT BOTH)**

Based on the statement of the problem, students should state either objectives or research questions of their studies. They should do this unambiguously.
 - 2.4 **Hypotheses of the study (where needed)**

Where applicable, particularly in the Natural Sciences, students should state unequivocal and testable hypotheses that are based on theory and on the statement of the problem. Each hypothesis should have a clear rationale.
 - 2.5 **Significance of the study**

Students should state the importance of their studies, the anticipated contribution of such studies to knowledge and to socio-economic progress.
 - 2.6 **Limitation of the study**

Students should indicate the scope, logistical and resource limitations of their studies.
3. **Literature Review and (where applicable) the theoretical framework**

In this section students should prepare critical, synthesized and integrated literature reviews that should demonstrate the need and justification of their studies. The reviews should show gaps in knowledge, theoretical and methodological shortcomings, need for further research, unanswered questions, disagreements in literature and theoretical frameworks that may need to be revised to resolve controversies. In addition, the reviews should demonstrate what has been done in research areas of interest and what remains uninvestigated.
4. **Methodology**
 - 4.1 **Research Design**

Students should provide clear statements on either quantitative or qualitative research designs they intend to use. It is not necessary to provide the definitions of the research designs. However, they should specify how they intend to use particular research designs in their studies. They should not merely provide the distinction between the two generic designs
 - 4.2 **Population (where applicable)**

Students should, where applicable, specify the population to which they would like to generalize their research findings.
 - 4.3 **Sample**

Students should clearly explain how they intend to draw samples from the target populations. They should specify how they intend to appropriately use either quantitative or qualitative sampling techniques to draw research samples. Merely describing what these sampling techniques are is inadequate.
 - 4.4 **Research Instruments**

Research instruments and measures that would be used to collect data should be clearly provided under this section.

4.5 Procedure

The manner in which data would be collected should be explained here. How research instruments would be used to collect data should be specified in this section.

4.6 Data analysis

In this section, students should provide specific strategies that they would employ to analyze their data. Mere reference to particular quantitative data analysis statistical packages and electronic qualitative data analysis procedures would not be sufficient.

4.7 Budget (for sponsored students only)

This section is only applicable to sponsored students

5. Research Ethics

Students should provide information on how they shall observe research ethics when conducting their studies. Merely stating what research ethics are, would not be sufficient.

6. References

Students should use the **Publication Manual of the American Psychological Association (APA)** format when citing sources of information in text and when preparing reference lists at the end of their research proposals. There must be consistency between sources cited in the text of the proposal and sources of information indicated in reference lists. Unless critical in the area of research, primary and secondary sources of information cited shall not be more than 10 years old.

7. Postgraduate students **should not use** the **Wikipedia** as a valid academic source of information as the information presented in it is not verifiable.

Length of research proposals submitted for consideration by the Postgraduate Studies Committee

1. The length of abridged versions of student research proposals for submission to the Postgraduate Studies Committee shall be as follows:
 - 1.1 Research Proposals from students at the Master's Degree level shall not exceed 12 double-spaced typed pages in length.
 - 1.2 Research proposals from students at the Doctoral Degree level shall not exceed 14 double-spaced typed pages in length.
 - 1.3 In each case, research proposal summaries shall not exceed 2 double-spaced typed pages in length.
 - 1.4 The font size 12, Times New Roman format shall be used in all cases.

The limit of the number of times postgraduate student research proposals can be considered by the postgraduate studies committee

Postgraduate Students shall be allowed to re-submit their revised research proposals to the Postgraduate Studies Committee for up to a maximum of only **3 times within a period of one academic year**.

De-registration of postgraduate students who fail to make progress

Faculties shall deregister postgraduate students who fail to make progress after the three re-submissions of their research proposals or after the permitted duration of their studies.

Referees

The Postgraduate Studies Committee may wish to require scholars who know the applicant well to comment on his/her ability to undertake the proposed research. It is important, therefore, that the applicant includes names (and full addresses) of two or three possible referees who could give an assessment of the applicant's abilities.

Outline of Research Proposal summaries

The candidates are required to submit to the Senate, through the Postgraduate Studies Committee, two (2) page summaries of their research proposals. These should include the title of the research proposal using information contained in Annex 7, a statement of the problem and its significance, a brief summation of the foci of the literature in the area of study and the methodology to be used in the study and the research ethics to be considered or observed. The methodology section should include a clear statement on data analysis.

ANNEX 2

REGULATIONS AND GUIDELINES FOR WRITING AND PRESENTATION OF POSTGRADUATE THESES AND DISSERTATIONS

Broad Guidelines on Thesis/ Dissertation Manuscript Preparation

Typing/Word-processing

The thesis/dissertation must be typed or printed on good quality A4 paper. The typescript must be clear, double-spaced, and on one side of the paper. In addition, the letter size of 12 and the Times New Roman format should be used.

Pagination

The preliminaries (i.e., parts preceding the Introduction) must be in lower case Roman numerals (i.e.: (i), (ii), (iii), (iv)...), beginning with the title page. The pages in the main body of the thesis/dissertation should be numbered in Arabic numerals (i.e.: "1", "2", "3", "4"...) consecutively throughout. The page numbers should be centred in the upper margin.

Margins

The left hand margin must be 4.0 cm from the left edge of the paper; the right hand margin must be 2.5 cm from the right edge; the top margin 4.0 cm from the top of the page, and the bottom one 2.5 cm from the bottom edge of the paper.

Title page

The title page must be organized such that it is symmetrically arranged. The page should show the title of the thesis/dissertation in CAPITALS; should contain a statement that the thesis/dissertation is being submitted in fulfilment or partial fulfilment of the requirements for the degree mentioned; should give the year of completion of the study, and the name of the degree for which it has been submitted. (See Annex 7)

Abstract

Following the title page, the thesis/dissertation shall contain an abstract which concisely and comprehensively summarizes the essential points and conclusions emanating from the research. The abstract should, as stated earlier, be between 200-300 words in the case of Master's theses, and 300-400 words for Doctoral dissertations. Furthermore, it should include the purpose of the study, the methodology used, the main findings, conclusions and recommendations in the case of a dissertation.

Format of the Abstract

1. The abstract must be double-spaced typed and on one side of the paper. In addition, the font size 12, Times New Roman format shall be used in all cases.
2. The page margins indicated above for the thesis/dissertation must be used.
3. The abstract should not contain any headings.

Table of Contents

The Table of Contents shall be analytical and refer to specific pages where each major component of the thesis/ dissertation is found. If there is a list of Tables, or a list of Figures, these should be arranged separately, but in the general format of the Table of Contents.

Acknowledgements

The thesis/dissertation shall also contain an Acknowledgements section, in which the candidates express their appreciation and gratitude to all the people and institutions which rendered help in the course of the study.

Dedication

If the candidate wishes to dedicate the thesis/dissertation to any person, the dedication should be concisely written, and should appear in the preliminaries.

Declarations

The thesis/dissertation shall also contain the various declarations as pointed out earlier (i.e., one stating that the thesis/dissertation is the candidate's original work, and that it has not been submitted for a degree elsewhere; and a declaration of copyright; see annex 3).

Body of the Thesis/Dissertation

- (a) Tables, text figures, diagrams and photographic illustrations should be numbered in separate sequence, and be cited by number in the text. Each table and figure should have a concise but comprehensive caption. The illustrations should be of publishable quality.
- (b) The text should contain a comprehensive Introduction and Literature Review, a statement of the research problem, the objectives, the hypotheses, the Materials and Methods used in the research, a description and statistical analysis of the research data, a discussion of the results, a statement on the practical applications and implications of the research findings, and possibly also suggestions for further research. There should also be a conclusion, summing up, in not more than 1 000 words, the major findings of the research. All these aspects should be presented into chapters on Introduction, Literature Review, Methodology, Results, Discussion, Recommendations and Conclusion.

Language

The presentation of the thesis/dissertation shall normally be in English. The use of a language other than English requires approval of Senate.

Literature Cited

All the literature cited in the text must be arranged in alphabetical order at the end of the thesis/dissertation, in accordance with the format used in the Publication Manual of the American Psychological Association (APA). This should be the case as well for citations in the text of research proposals, theses and dissertations. Unless critical in the area of research, primary and secondary sources of information cited shall not be more than 10 years old. Candidates shall use more primary than secondary sources of information to guide their research.

If a candidate draws from work that s/he has published previously, it should be fully cited.

Length of Theses/Dissertations

The suggested guidelines are as follows (A4 double spacing):

- (a) **Master's theses:** The recommended length of a Master's thesis is a minimum of 40 000 words and a maximum of 65 000 words.
- (b) **Doctoral dissertations:** The recommended length of a Doctoral dissertation is a minimum of 80 000 words and a maximum of 140 000 words.

Submission of Theses/Dissertations

The initial submission of the thesis/dissertation shall be **two** copies for Master's candidates and **four** copies for doctoral candidates. These shall be in loose-bound form.

After the approval of the thesis/dissertation, by the examiners, and after all the corrections recommended by the examiners has been made, **five** fully bound copies of the theses/dissertations shall be submitted to the Postgraduate Studies Committee. In addition, candidates should submit electronic versions of their theses/dissertation.

The colour for Master's theses shall be **red**, and that for Doctoral Dissertations shall be **black**.

Candidates should ensure that when binding the theses/ dissertations, the spine shall contain the name of the candidate, the degree for which it was submitted, and the year of degree award.

ANNEX 3

REGULATIONS AND GUIDELINES ON THE EXAMINATION OF THE SUBMITTED MASTER'S THESES AND DOCTORAL DISSERTATIONS

MASTER'S THESES AND DOCTORAL DISSERTATIONS

- 1) Every thesis/dissertation shall be assessed by at least two examiners in the case of Master's candidates and at least three examiners for Doctoral candidates. At least one of the examiners in each case must be external to the University of Namibia. Supervisors should not act as Internal Examiners as they would not critically examine students' work they have supervised. Departments shall utilize appropriately qualified staff from other departments in the University to act as internal examiners when they have within their ranks insufficient staff to draw internal examiners from. Internal and External Examiners shall not be selected from the pool of examiners already approved for courses in the specific programme and should be approved by Senate.
- 2) The examiners shall be required to submit their detailed reports about the theses/dissertations within a period of two months from the date of receipt of the documents. If their assessments are not received within two months, new examiners may be appointed.
- 3) Each examiner shall be required to examine the thesis/dissertation in detail, and submit his/her assessment under the following headings:
 - (a) **Appropriateness of the thesis/ dissertation title.** The title should be a true reflection of the content of the thesis/ dissertation.
 - (b) **Completeness of the Literature Review.** The literature review should lead the reader to a good understanding of what is already known about the research topic, what gaps of knowledge exist, what the study was intended to contribute, and what hypotheses guided the study. The examiners should comment on the candidate's familiarity with the literature.
 - (c) **Research Methods:** The examiners should also comment on the appropriateness of the research methods (and instruments, where relevant) employed in the study.
 - (d) **Presentation of the Results:** The examiners should comment on the manner in which the findings of the study are presented. If tables of data are provided, are they reduced statistically? Are the statistical analyses appropriate? If illustrations are provided, are they of publishable quality? Is the description of the research results of adequate clarity and scholarship?
 - (e) **Discussions and Conclusions:** Are the conclusions clearly presented? Are they logical and supported by data? Has the candidate sufficiently indicated how his/her results compare with those of others, as cited in the literature? From the thesis/dissertation, is his/her contribution to new knowledge clearly brought out? In the case of Doctoral dissertations, is there evidence of sufficient originality? If there are weaknesses in the thesis/ dissertation, what are the shortcomings?
 - (f) **Summary:** The examiner should present a summary indicating whether s/he recommends the thesis/ dissertation for a postgraduate degree award, by completing the Summary Form (attached as Annex 5).
 - (g) The External Examiners should address their comprehensive written and typed reports to the Vice-Chancellor.
- 4)
 - (a) Where a Master's thesis is recommended for re-writing, it must be re-submitted within 6 months.
 - (b) Where a Doctoral dissertation is recommended for re-writing, it must be re-submitted within 12 months.

ASSESSMENT OF PUBLISHED WORK FOR HIGHER DOCTORATES

- 1) The work submitted to UNAM for a Higher Doctorate candidate shall be evaluated by at least three examiners appointed by Senate on recommendation of the relevant Faculty Board and Postgraduate Studies Committee.
- 2) The job of examiners shall be to critically examine the candidate's contribution, to ascertain that:
 - (a) the work shows outstanding originality;
 - (b) the candidate's contribution to new knowledge has been substantial;
 - (c) the quality of the candidate's **unifying statement** is truly excellent.

- 3) Examiners for Higher Doctorates shall be selected from amongst the most highly distinguished international scholars on the subject, preferably holders of Higher Doctorates themselves.
- 4) The examiners shall be required to report on the candidate's works, recommending in definite terms, whether or not the Higher Doctorate should be awarded.
- 5) For a candidate to merit a higher doctorate award, the examiners must unanimously approve the award. In case of disagreement among the examiners, similar guidelines to those applicable to Master's and Doctoral candidates shall be followed.

VIVA VOCE EXAMINATIONS

- 1) In addition to writing a thesis/dissertation, the postgraduate candidates who are registered as per provisions under Regulation I.4.3 (2), shall appear for a viva voce examination, to defend the submitted work before a panel of specialists on the subject.
- 2) The **viva voce** examination shall take place only after the Postgraduate Studies Committee and the Senate are satisfied that the thesis/dissertation submitted by the candidate is considered by the examiners to be of an acceptable standard.
- 3) The questions to be asked in the **viva voce** examination shall primarily be focused on the candidate's thesis/dissertation research area.
- 4) The members of the **viva voce** panel shall be so selected as to ensure that the candidate is examined by scholars who are sufficiently qualified and experienced in the research field.
- 5) The Examiners and the Supervisor(s) of the thesis/ dissertation shall be members of the **viva voce** panel. The public may attend but are not permitted to ask questions.
- 6) The Chairperson of the **viva voce** panel shall be a senior academic and shall be appointed by Senate on recommendation of relevant academic Boards.
- 7) The **viva voce** panelists shall be provided with full texts of the theses/dissertations, and also of the examiners' reports, at least two weeks before the date scheduled for the oral examination.
- 8) The function of the **viva voce** panel shall be:
 - (a) to ascertain that:
 - * the thesis/dissertation presented (the data, methodology, analysis and findings) is the original work of the candidate;
 - * the broader subject area in which the study is based is fully grasped by the candidate, and
 - * any weaknesses in the thesis/dissertation can be adequately clarified by the candidate, and
 - (b) to make a definite recommendation to the Postgraduate Studies Committee and Senate, as to whether the candidate be deemed to have **passed** or **failed**.
- 9) The **viva voce** panel shall, as far as possible, endeavour to reach a unanimous decision on the candidate's performance. Where the panelists are unable to reach a consensus as to whether the candidate passes or fails, a vote may be taken to arrive at a reasonable decision. A majority vote shall be required for passing the **viva voce** examination.
- 10)
 - (a) At the end of the oral examination, the panel shall sign a **viva voce** Examination Results Form (Annex 6) making a specific recommendation to the Postgraduate Studies Committee on the candidate's performance.
 - (b) The Chairperson of the panel shall also submit to the Postgraduate Studies Committee a comprehensive report, approved by the **viva voce** panelists. This should be done within one week of the examination.
- 11) In cases of disagreement amongst the **viva voce** panelists, the Postgraduate Studies Committee shall carefully study the case and recommend to Senate one of the following actions:
 - (a) the candidate should revise and re-submit the thesis/ dissertation, and subsequently re-appear for a further oral examination, within a specified time (but not exceeding 12 months from the date of the decision by Senate); or
 - (b) the candidate shall be deemed to have failed outright.
- 12) The duration of the **viva voce** shall not normally exceed **three** hours.
- 13) Doctoral work shall not be graded: the examination shall be on pass/fail basis only.

ANNEX 4

SUMMARY ON THE DECLARATIONS WHICH MUST BE CONTAINED IN THE SUBMITTED THESES/ DISSERTATIONS

- (1) Every thesis/dissertation shall be accompanied by a statement declaring that the document is a true reflection of the candidate's own research, and has not been submitted for a degree in any other institution of higher learning.
- (2) The thesis/dissertation shall contain a statement of copyright, reading as follows: No part of this thesis/ dissertation may be reproduced, stored in any retrieval system, or transmitted in any form, or by any means (e.g., electronic, mechanical, photocopying, recording or otherwise) without the prior written permission of the author, or the University of Namibia in that behalf.
- (3) In presenting a thesis/dissertation, the candidate shall be deemed by so doing to have granted the University the right to reproduce it in whole or in part, in any manner or format which the University may deem fit, for any person or institution requiring it for study and research; provided that the University shall waive this right if the whole thesis has been or is being published in a manner satisfactory to the University.

These declarations should be used in theses/dissertations exactly as follows:

DECLARATIONS

. I, [student's name], declare hereby that this study is a true reflection of my own research, and that this work, or part thereof has not been submitted for a degree in any other institution of higher education.

. No part of this thesis/dissertation may be reproduced, stored in any retrieval system, or transmitted in any form, or by means (e.g. electronic, mechanical, photocopying, recording or otherwise) without the prior permission of the author, or The University of Namibia in that behalf.

. I, [student's name], grant The University of Namibia the right to reproduce this thesis in whole or in part, in any manner or format, which The University of Namibia may deem fit, for any person or institution requiring it for study and research; providing that The University of Namibia shall waive this right if the whole thesis has been or is being published in a manner satisfactory to the University.
